## What We Do

We offer birth parents the unique opportunity to select the couple that will be their child's "forever family" based on the birth parent's specific criteria. Local adoptive families have undertaken the intensive process of becoming "certified to adopt" in the State of Arizona.

They have completed background checks with the FBI, the Arizona Department of Public Safety and the Arizona Department of Child Safety. Therefore, you can feel at ease knowing that all aspects of the adoptive family's life has been reviewed by the court and they have been approved to adopt a child. We understand that according to the American Journal of Public Health, between 6 and 10 percent of incarcerated women are pregnant; in one year alone, 1,400 women gave birth while incarcerated in the United States.

## We Respect You, Your Privacy, & Your Choice

No restrictions on coming into our program, you can be at any stage of your pregnancy.

We have both in-state and out-of-state families for you to choose from.

You will have your own caseworker to assist you on your adoption journey.

Our office is located in Central Phoenix.

## Once You Choose A Family

You may choose to receive letters from the adoptive family to get to know them before you deliver. If you choose to do so you can receive post adoption letters, updates & pictures.

Every adoption situation is special and can be designed to be the amazing experience that gives you, peace of mind. In our program, we understand adoption and cherish this opportunity. We look forward to assisting you on this journey.

Adoption is a beautiful choice that lasts a lifetime!
