

Call now and give yourself a chance to make a choice before the choice is made for you. (623) 695-4112

Adoption is NOT giving your baby away, it is choosing to not have your child taken into the state's custody. Choosing adoption may be the most loving choice a mother can make.

If you are at the hospital and have already delivered call us and we can be at the hospital within an hour.

About DCS/CPS
Intervention?**

This is Your Choice.
What You Need to Know.

DCS

Department of Child Safety
(Formerly known as CPS: Child Protective Services)

DCS /CPS Involvement

If DCS decides to take custody of your baby in the hospital, you may not have any options. You will be required to participate in a DCS Family Reunification Case Plan which could include the following services

- Random drug testing
- Parenting Classes
- Supervised Visitation
- Employment
- Substance Abuse Treatment
- Domestic Violence Classes
- All Court Hearings and Any Child & Family Team Meetings(CFT) for the Child.
- Psychiatric/Psychological Evaluations
- And more

DCS

Department of Child Safety Continued...

Additionally, you may be required to meet with your case manager at least once a month and be given a service letter that explains every service you are supposed to be participating in.

If it is determined that you have been unsuccessful in your case plan to reunify with your child, the state may request to change the case plan to severance and adoption. At this point your child may be adopted by a foster family.

Learn more about making an adoption plan.
